16th Annual Masonry Instructors Workshop

SPONSORED BY THE PENNSYLVANIA CONCRETE MASONRY ASSOCIATION AND THE MID-ATLANTIC MASONRY ASSOCIATION

PURPOSE: To provide a forum for the exchange of ideas and assistance for teaching young men and women to have the best possible skills for entrance into the workplace or for post secondary education for masonry.

Monday - OCTOBER 17, 2022
"IN PERSON"

BERKS CAREER & TECHNOLOGY CENTER
3307 Friedensburg Road - Oley, PA 19547

(Detailed directions will be emailed to you with your confirmation.)

Masonry instructors and multi-disciplinary construction instructors from secondary and post secondary level schools are invited to attend. Each participant will receive a binder including all of the presentations, list of attendees and presenters with full contact information, and other materials. Instructors in Pennsylvania will be able to submit for Act 48 Professional Education Credit through their individual school.

There is **no cost to attend** and **funding is available for lodging the night before the Workshop** (courtesy of PCMA and MAMA) for those instructors residing a substantial distance from Oley, PA.

If you are in need of lodging, call Jan Boyer at 717-279-6346 or email jboyer@pacma.com to reserve your space in the PCMA room block.

You will receive specific instructions in your confirmation email.

AGENDA

7:30 – 8:00 AM - Registration

8:00 – 9:00 AM - Welcome & Introductions

9:00 – 9:45 AM - Education Session

Understanding the NEW Portland-Limestone Cement (Type II) - After decades of research and use in other parts of the world, portland-limestone cements (PLCs) are being embraced by the US as a ready-to-implement change to lower the initial CO2 footprint of concrete and masonry construction. This session explains what PLCs are and how they compare to ordinary portland cement in terms of fresh and hardened properties. PLCs can help the cement and concrete industry move toward a lower carbon future as laid out in the Portland Cement Association's Roadmap to Carbon Neutrality by 2050.
Presenter: Jamie Farny, Director Environmental Measurement and Metrics for the Portland Cement Association

10:00 – 11:30 - Masonry Instructors Association Meeting

11:30 AM – 12:30 PM - Lunch

12:30 – 2:30 PM - Tour of Berks CTC Masonry Department
Demonstrations of Masonry Cleaning & Product Demos by Prosoco

3:00 – 4:00 PM - Travel across street for a Tour of the Student House Build lead by instructor Mike Kern
